ABOUT US

SDS Dynamic Solutions is a foreign-invested company operating in the Kingdom of Saudi Arabia, specialized in delivering integrated technology solutions for government entities, private sector organizations, and businesses.

We provide professional IT services that combine **quality, innovation, and fast execution.**

We design and implement advanced technology solutions including IT infrastructure, networking, cybersecurity, surveillance systems, data centers, and digital transformation solutions, while adhering to the highest international standards to ensure business continuity and operational efficiency.

INNOVATION

We utilize the latest technologies to deliver smart and advanced solutions.

QUALITY

We are committed to the highest quality standards in all our services.

RELIABILITY

We ensure trust, security, and business continuity.

SPEED

fast execution with accuracy and efficiency.

CLIENT FOCUS

We prioritize our clients' needs and deliver tailored solutions.

**Dynamic
Solutions**

SOLUTIONS THAT DRIVE GROWTH

VISION

To become the leading technology partner in the Kingdom of Saudi Arabia by empowering organizations through innovative and sustainable digital solutions.

MISSION

To deliver reliable and integrated technology solutions that help our clients achieve growth, improve efficiency, and accelerate digital transformation through a highly skilled team and strategic partnerships with leading global brands.

**Dynamic
Solutions**

SOLUTIONS THAT DRIVE GROWTH

OUR CORE VALUES

01

QUALITY AND PROFESSIONALISM

We are committed to delivering the highest quality standards in all our services with professional execution that ensures customer satisfaction and excellent results.

02

INNOVATION AND CONTINUOUS IMPROVEMENT

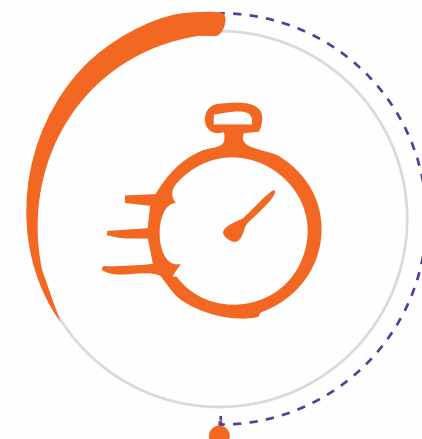

We continuously adopt the latest technologies and develop innovative solutions that keep up with market changes and support future growth.

03

COMMITMENT AND INTEGRITY

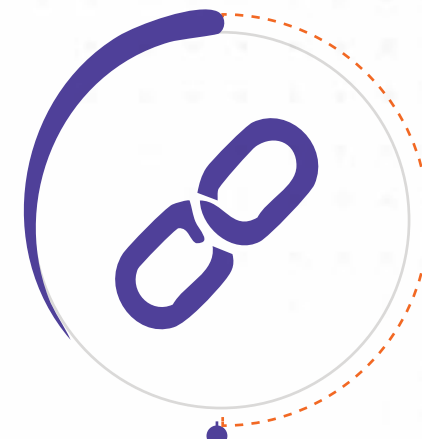

We conduct our business with transparency and honesty, upholding the highest standards of integrity and professional responsibility in everything we do.

04

RESPONSIVENESS AND EFFICIENCY

We respond quickly to our clients' needs and deliver projects with high efficiency and within the agreed timelines.

05

BUILDING LONG-TERM PARTNERSHIPS

We believe that true success is built on lasting relationships, so we strive to build strong and long-term partnerships based on trust and mutual success.

We are committed to delivering real value to our clients through our core values, which guide our operations and ensure the highest results, better performance, and a brighter future.

**Dynamic
Solutions**

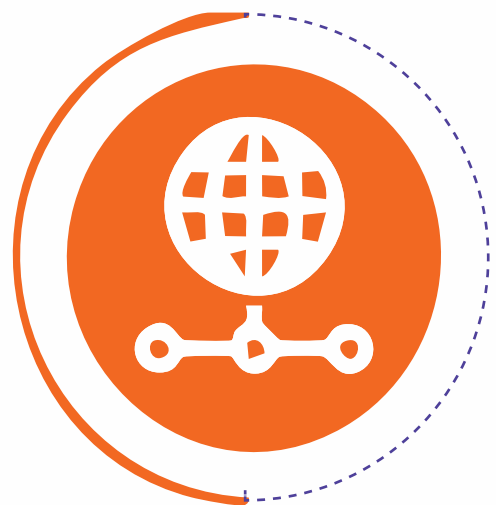

SOLUTIONS THAT DRIVE GROWTH

OUR SERVICES

1. IT INFRASTRUCTURE SOLUTIONS:

- Design and implementation of IT infrastructure.
- Structured cabling and fiber optic installations.
- Server rooms and data center setup.
- Storage and backup solutions.
- Cloud computing and virtualization solutions.

2. NETWORKING AND COMMUNICATIONS:

- Design and installation of internal and external networks.
- Switches, routers, and wireless access points.
- WiFi solutions for offices and facilities.
- Branch and remote site connectivity.
- Network monitoring and management.

3. CYBERSECURITY AND PROTECTION SYSTEMS:

- Firewalls and advanced protection systems.
- Anti-virus and intrusion prevention solutions.
- Access control and security systems.
- Smart surveillance and CCTV systems.
- Email and data protection solutions.

We develop modern digital solution that help organizations improve performance, simplify operations, and strengthen communication while focusing on quality, security, and ease of use.

**Dynamic
Solutions**

SOLUTIONS THAT DRIVE GROWTH

OUR SERVICES

4. DIGITAL TRANSFORMATION AND SMART SYSTEMS:

- Business management and enterprise systems.
- Website development and digital portals.
- Smart city technologies and solutions.
- HR, attendance, and workforce management systems.
- Electronic archiving and document management systems.

5. SOFTWARE DEVELOPMENT, APPLICATIONS, AND PROFESSIONAL WEBSITES

- Custom software and systems development based on client requirements.
- Professional websites, e-commerce platforms, and mobile applications.
- AI-powered, cloud-native, and enterprise technology solutions.
- Dashboard development, database integration, and API connectivity.
- UI/UX design, system optimization, maintenance, and technical support.
- Cloud Specialists, LLC provides end-to-end technology.
- solutions including software product development, artificial intelligence.
- Cloud-native infrastructure, enterprise applications.
- DevOps, and digital transformation services. .

We develop modern digital solution that help organizations improve performance, simplify operations, and strengthen communication while focusing on quality, security, and ease of use.

Dynamic Solutions

SOLUTIONS THAT DRIVE GROWTH

HIGH-PERFORMANCE COMPUTING, ENGINEERING DESIGN & AI SYSTEM SOLUTIONS

We deliver advanced computing solutions including high-performance systems, engineering workstations, and AI servers to empower innovation, accelerate workflows, and unlock the power of data.

HIGH-PERFORMANCE COMPUTING SYSTEMS

- High-performance PCs
- Latest GPUs (NVIDIA / AMD)
- Professional displays (4K / 8K)
- Advanced cooling solutions
- Professional peripherals

ENGINEERING WORKSTATIONS

- Workstations for engineering design
- Support for AutoCAD / Revit / 3D
- Powerful CPUs & GPUs
- High performance for modeling & simulation
- Solutions for engineering offices

ARTIFICIAL INTELLIGENCE SYSTEMS

- AI Workstations
- AI model training systems
- Big data processing
- Computer Vision solutions
- Support for AI projects and development

HIGH-PERFORMANCE SERVERS

- AI optimized servers
- GPU Servers
- Data processing & analytics
- Data center solutions
- High-speed storage systems

ADVANCED COMPUTING INFRASTRUCTURE

- High-speed networking (10G / 40G)
- Data center cooling systems
- Rack & power solutions
- Full system integration
- Stable & reliable environments

COMPREHENSIVE ENTERPRISE SOLUTIONS

- Project design & implementation
- Full system integration
- Technical support & maintenance
- Scalable solutions
- Advanced technical consulting

We provide advanced computing solutions that enable organizations to achieve **maximum performance**, drive innovation, and leverage the full potential of **AI technologies**.

CONTROL ROOM COMMAND CENTER & OPERATIONS ROOM SOLUTIONS

We design and deliver mission-critical control rooms, command centers, monitoring facilities, and operator workspaces that ensure continuous operations, enhanced situational awareness, and operational excellence.

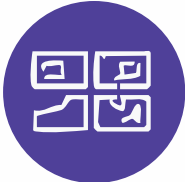

CONTROL ROOM CONSOLES

- Mission Critical Design
- 24/7 Operations
- Modular Architecture
- Operator Efficiency

COMMAND CENTER SOLUTIONS

- National Operations Centers
- Security Control Rooms
- Utility Monitoring Centers
- Integrated Platforms

VIDEO WALL SYSTEMS

- Real-Time Visualization
- Multi-Source Display
- High Resolution Monitoring
- Centralized Management

MONITOR ARM SYSTEMS

- Flexible Positioning
- Ergonomic Design
- Multi-Monitor Support
- Space Optimization

OPERATOR FURNITURE

- Ergonomic Chairs
- 24/7 Operation Ready
- Fatigue Reduction
- Maximum Comfort

CONFERENCE & COLLABORATION

- Multimedia Meeting Tables
- Interactive Display Integration
- Hybrid Meeting Solutions
- Executive Boardrooms

WHY SDS?

We provide advanced control room solutions that enable organizations to improve **operational visibility**, increase **efficiency**, enhance **collaboration**, and support **mission-critical** decision making.

COMPLETE PRINTING & COPYING SOLUTIONS

We deliver end-to-end printing solutions, including printers, inks, copiers, and print management systems, helping organizations improve operational efficiency, reduce costs, and ensure exceptional quality across all processes.

PRINTERS

- Laser and inkjet printers for business
- Desktop and high-volume production printers
- Network and All-in-One multifunction printers
- Color and monochrome printers
- Label and barcode printers

COPIERS & MFP DEVICES

- High-performance copiers for offices and enterprises
- Multifunction devices (Print – Copy – Scan)
- Solutions for small to large organizations
- Various speeds to meet your needs
- Network printing support

INKS & CONSUMABLES

- Genuine and compatible inks for all brands
- High-quality toner cartridges
- Premium print papers in various sizes
- Maintenance and replacement supplies
- Cost optimization solutions

PRINT MANAGEMENT SOLUTIONS

- Centralized print management systems
- Usage tracking and cost control
- User access and permission control
- Detailed usage reports
- Integration with enterprise systems (ERP / HR)

ENTERPRISE PRINTING SOLUTIONS

- In-house print centers setup
- Printing solutions for factories and large companies
- High-efficiency printing for invoices and contracts
- Electronic archiving and print integration
- Workflow automation

SUPPORT & SERVICES

- Preventive and corrective maintenance contracts
- Fast response and on-site support team
- Supply of original spare parts and consumables
- User training and technical consulting
- Environmentally friendly printing solutions

Key Benefits

-  High print quality and professional output
-  Reduce printing costs and optimize resource usage
-  Reliable and secure printing environment
-  Smart printing management from anywhere
-  Dedicated support team with quick response

We help our clients build smarter printing environments through **intelligent, reliable, and cost-effective** solutions that drive efficiency and increase productivity.

SOLUTIONS THAT DRIVE GROWTH

DOCUMENT SCANNING & ARCHIVING SOLUTIONS

We provide comprehensive scanning and archiving solutions that help organizations digitize, organize, and secure their documents, improve operational efficiency, and accelerate access to information.

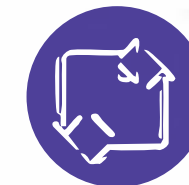

SCANNING EQUIPMENT

- High-speed desktop and production scanners
- Batch document scanners
- High-volume scanners for enterprises
- OCR-enabled scanners
- Portable scanning solutions

DOCUMENT MANAGEMENT SYSTEMS (DMS)

- Manage digital documents and files
- Smart indexing and classification
- Advanced search with keywords
- Secure document storage
- User access and permissions

DOCUMENT DIGITIZATION

- Convert paper documents to PDF / Word
- OCR data extraction
- Digitize legacy archives
- Data capture and automation
- Organize files by department or structure

SECURITY & DATA PROTECTION

- Document and data encryption
- Backup and recovery
- Access control and permissions
- Protection from loss or tampering
- Compliance with standards

SYSTEM INTEGRATION

- Integration with ERP, HR, and business systems
- Email integration
- Automated document archiving
- Workflow management
- Cloud or on-premise solutions

ENTERPRISE ARCHIVING SOLUTIONS

- Employee file archiving
- Contracts and invoices archiving
- Government & compliance documents
- Reduce paper dependency
- Faster access, better decisions

Key Benefits

- Improve efficiency and productivity
- Quick and secure access to information
- Reduce paper usage and storage costs
- Ensure data security and compliance
- Support better decision making
- Business continuity and disaster recovery

We help our clients move toward a fully digital workplace with **smart, secure, and easy - to use** archiving solutions.

IN-VEHICLE CAMERA SOLUTIONS FOR TRANSPORTATION

1. VEHICLE CCTV SYSTEMS

- Indoor & outdoor cameras
- Continuous recording while driving
- Night vision support
- Shock & vibration resistant
- High image quality (HD / 4K)

LIVE MONITORING

- Live streaming to control center
- Real-time fleet tracking
- Instant alerts for incidents
- GPS location tracking
- Multi-vehicle management

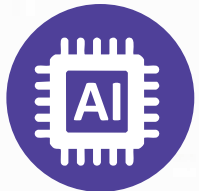

RECORDING & STORAGE

- Vehicle DVR / NVR systems
- Local & cloud storage options
- Event-triggered recording
- Easy video retrieval
- Data protection & reliability

SAFETY & ALERT SYSTEMS

- Speeding alerts
- Driver behavior monitoring
- Emergency alarms
- Door open/close monitoring
- Incident recording & notification

SMART ANALYTICS (AI)

- Face recognition
- Driver behavior analysis
- Fatigue & distraction detection
- Passenger counting
- Advanced analytics & reporting

COMPLETE FLEET SOLUTIONS

- Centralized fleet management
- Integration with ERP & GPS systems
- Detailed operational reports
- Improve efficiency & reduce costs
- Maintenance & technical support

Advanced video surveillance solutions designed for vehicles to enhance safety, monitor operations, and improve efficiency through smart systems built for mobile environments.

FIBER OPTIC SOLUTIONS

We deliver reliable and high-performance fiber optic solutions that ensure fast, secure and future-ready connectivity.

Our expertise and advanced techniques support the growing demands of modern businesses and infrastructure.

Fiber Optic Network Design & Installation

End-to-end fiber network design, planning and professional installation.

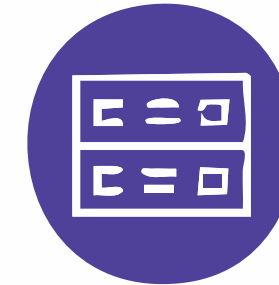

Indoor / Outdoor Fiber Cabling Systems

High-quality fiber cabling solutions for indoor and outdoor environments.

Fiber Splicing & Termination Services

Precision fiber splicing, termination and testing for maximum reliability.

ODF, Patch Panels & Fiber Distribution Systems

Complete distribution solutions for organized and efficient fiber management.

Fiber Patch Cords, Connectors & Accessories

Wide range of high-quality fiber patch cords, connectors and accessories.

GPON / FTTH Solutions

End-to-end GPON / FTTH solutions for homes, buildings and campuses.

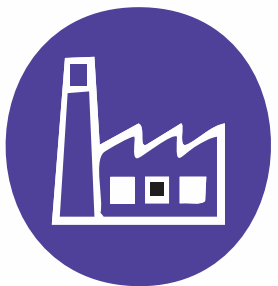

Data Center Fiber Backbone Solutions

High-performance fiber backbone solutions for data centers and enterprises.

Fiber Testing & OTDR Certification Services

Advanced testing, OTDR certification and detailed reports for your network.

ROBOTICS & AI ENABLEMENT SOLUTIONS

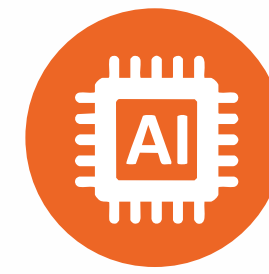

We deliver innovative robotics and AI solutions that empower businesses to automate, analyze, and scale with intelligence. Our advanced technologies enable smarter operations, greater efficiency, and data-driven decision making.

AI Workstations & GPU Computing Systems

High-performance workstations and GPU systems for AI model development and training.

Edge AI Devices & Smart Processing Units

Compact edge AI devices for real-time inference and smart decision making.

Industrial Sensors & Vision Camera Systems

Advanced sensors and vision cameras for precise detection, inspection and measurement.

Robotics Controllers & Automation Hardware

Controllers, drives and automation hardware for industrial and service robotics.

Smart IoT Devices & Data Collection Systems

IoT devices and data acquisition solutions for real-time monitoring and analytics.

Machine Vision & Object Detection Solutions

AI-powered vision solutions for inspection, classification and object detection.

Autonomous Navigation & Tracking Components

Components and modules for autonomous movement, tracking and positioning.

Integration Platforms for Robotics Systems

Robust integration platforms to connect robots, AI models and enterprise systems.

BACKUP & DATA PROTECTION SOLUTIONS

We provide reliable backup and data protection solutions designed to secure critical business data, ensure business continuity, and protect against data loss, cyber threats, and system failures.

DATA BACKUP SYSTEMS

- Local and cloud-based backup solutions
- Automated scheduled backups
- Full, incremental, and differential backups
- Backup for servers, PCs, and databases
- High-speed and secure data backup

CLOUD BACKUP SOLUTIONS

- Secure cloud storage solutions
- Offsite data protection
- Scalable storage capacity
- Remote access and management
- Integration with business systems

DISASTER RECOVERY (DR)

- Business continuity planning
- Fast data recovery solutions
- System restore and failover systems
- Protection against hardware failure
- Minimal downtime and data loss

DATA SECURITY & ENCRYPTION

- Data encryption during backup and transfer
- Secure access control and permissions
- Protection against ransomware
- Compliance with security standards
- Monitoring and alerts

ENTERPRISE BACKUP SOLUTIONS

- Backup for data centers and large organizations
- Virtual machine backup (VMware / Hyper-V)
- Backup for ERP, CRM, and enterprise systems
- Centralized backup management
- Multi-location backup solutions

BACKUP MANAGEMENT & MONITORING

- Centralized backup dashboard
- Backup status monitoring
- Automated reporting
- Error detection and alerts
- Performance optimization

We help organizations safeguard their data with **secure, scalable, and intelligent backup solutions** that ensure reliability and business continuity.

LASER MARKING & PLATE ENGRAVING SOLUTIONS

We deliver advanced laser marking and metal plate engraving solutions designed to meet industrial production needs with high efficiency and exceptional precision.

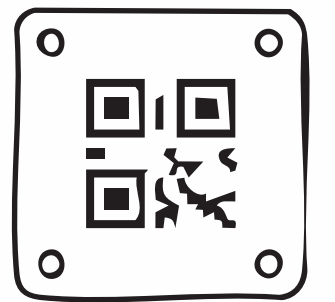

1 LASER MARKING SYSTEMS

- Laser Marking machines for aluminum and metals
- High-precision Fiber Laser systems
- Fast engraving solutions for high-volume production

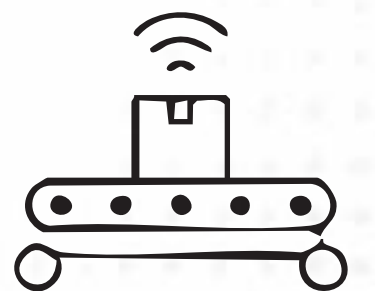

2 METAL PLATE ENGRAVING

- Engraving aluminum plates (Plates / Sheets)
- Unique QR codes for each plate
- High precision for text, numbers and logos
- Ability to engrave on full sheet before cutting

3 AUTOMATION & PRODUCTION SYSTEMS

- Automatic feeding systems (Auto Feeder)
- Integration with production lines
- Integration with production lines

PREMIUM PROMOTIONAL GIFTS & EXHIBITION SOLUTIONS

We provide complete solutions for promotional gifts and exhibitions that help businesses enhance their brand presence and create a lasting impression. High-quality products, innovative designs and professional execution make your brand stand out and be remembered.

1. Premium Promotional Gifts

- Customized gifts with your brand identity
- Pens, notebooks, mugs & office items
- Tech gifts (Power Banks, USB, Earbuds)
- Bags, apparel & printed promotional items
- Premium packaging & unique designs

2. BOOTH DESIGN & CONSTRUCTION

- Creative & professional booth design
- Full construction & build services
- Custom booths to match your brand
- Portable & modular booth solutions
- Attractive lighting & product display

3. DISPLAYS & EXHIBITION EQUIPMENT

- Interactive touch screens
- LED Displays & Video Walls
- Digital signage solutions
- Presentation & demo platforms
- High-quality audio & visual systems

4. MARKETING SOLUTIONS FOR EVENTS

- Exhibition marketing materials
- Roll-up banners & backdrops
- Brochures, flyers & catalogs
- Branding & visual identity for events
- Creative graphics & printing services

5. INTEGRATED SERVICES

- Full exhibition management
- Transportation, installation & dismantling
- On-site technical support
- Storage & logistics solutions
- Fast solutions for temporary events

Dynamic Solutions

SOLUTIONS THAT DRIVE GROWTH

BUSINESS CONSULTING & SERVICES

We deliver strategic, results-driven consulting and business services designed to accelerate growth, enhance operational efficiency, and drive sustainable value.

Our approach combines deep industry expertise with practical execution, enabling organizations to navigate complex challenges, optimize performance, and unlock new opportunities. From strategy development and market expansion to operational transformation and digital enablement, we partner with our clients to deliver measurable and lasting impact.

OUR APPROACH

We combine deep industry expertise with practical execution to help organizations :

- Navigate complex challenges.
- Optimize performance.
- Improve efficiency.
- Discover new opportunities for growth.

WHAT WE DELIVER

- Strategy development & business planning.
- Market expansion & opportunity assessment.
- Operational transformation & process improvement.
- Digital enablement & technology modernization.

THE RESULTS

- Accelerated growth.
- Enhanced efficiency.
- Stronger performance.
- New opportunities.
- Sustainable value creation.

"We don't just advise — we **execute, empower,** and **transform** to deliver measurable and lasting impact."
